AGREEMENT	
<p>I have read and understand the program information as stated in the attached application materials. I understand that by signing below, I agree to allow an official from my water provider to verify the installation of the equipment at said property. I agree to indemnify and hold the Regional Water Authority and my water provider, and their respective directors, officers, employees and agents, harmless from any and all liability or claims for damage, including any attorneys' fees and costs, connected to or in any way arising from the installation of the Smart Irrigation Controller, the inspection of the premises to verify proper installation, and any other activity related to this program.</p>

Terms and Conditions Smart Irrigation Rebate Program

Eligibility Guidelines

1. The applicant applying for the rebate must be a water service customer of the City of Folsom, El Dorado Irrigation District (EID), City of Placerville (administered by EID), Orange Vale Water Company or Sacramento Suburban Water District; and the site where the equipment is to be installed must receive water service from that provider.
2. The site must be currently metered and have a minimum of 12 months of metered usage data.
3. Rebates are only available to improve existing in-ground irrigation systems and/or automatic timers. New irrigation system installations are not eligible.
4. The maximum rebate for irrigation system efficiency improvements is 50% of the qualified material costs, not to exceed \$200.00 per customer. Labor and installation costs for irrigation efficiency improvements are not eligible.
5. The maximum rebate for the purchase of a SWAT tested Smart (i.e. weather-based) irrigation controller is the purchase cost of the controller, excluding sales tax, and signal service for five years (if applicable) up to \$500.00 per customer. If a signal-based controller is chosen, the applicant must purchase 5 years of signal service in order to qualify for a rebate. Signal service only for an existing Smart irrigation controller is not eligible.
6. The maximum rebate for professional installation of a SWAT tested Smart controller is \$150.00. The installation must be performed by a licensed California landscape contractor C-27 or irrigation specialty contractor C-61 / D-12 and/or be certified by the Irrigation Association as a Certified Landscape Irrigation Auditor. Lists of qualified installers may be found on RWA's website at rwah2o.org and include: the *Green Gardeners* and the *RWA Preferred Smart Controller Installers*.
7. Any project(s) started before the *Pre-Qualification Evaluation* is performed are not eligible for any portion of these rebates.
8. All applications for rebates under the *Smart Irrigation Rebate Program* must be submitted by September 30, 2011.

Instructions

1. The applicant must complete and submit an application to the appropriate water provider, and once the application has been received, a representative will contact the applicant to schedule a *Pre-Qualification Evaluation*.
2. Once the evaluation has been completed, the water provider will inform the applicant of the equipment and materials that are approved for purchase and eligible for a rebate by sending the applicant a *Pre-Qualification Evaluation* form.
3. The purchase and installation of all equipment by the applicant must be made after receiving written approval and within 60 days from the date of the *Pre-Qualification Evaluation*.
4. The applicant will then initial each item installed, sign and date the *Pre-Qualification Evaluation* form, and submit it with a copy of their receipts to the water provider. If a contractor purchased the materials or installed the controller, please ensure that the contractor's invoice lists materials and labor separately.
5. Once the post-installation packet with receipts is received and review by the water provider, the applicant will be contacted and a *Post-Installation Inspection* scheduled.
6. The rebate will then be processed as a billing credit for EID customers and check for City of Placerville customers, and will be issued within 60 days from the date of the *Post-Installation Inspection*. The rebate will be credited to the applicant's billing account if the water provider is EID; or a check made payable to the applicant will be mailed to the mailing address provided on the application if the water provider is the City of Placerville.
