

Recycled Water Irrigation System Installation Overview

The irrigation plan must be drawn in accordance with the District's Design and Construction Standards.

Two or three sets of plans are submitted to the District; the designer should retain a copy for the homeowner.

New Plans Submitted

Irrigation plans are revised and corrected by the designer.

The District reviews plans; allow up to 15 working days for processing.

Plans NOT Approved

If discrepancies are found, the irrigation plans are returned to the designer. The District will notify the homeowner of the plan return.

Plans APPROVED

When irrigation plans are approved, the District will mail notification to the designer and homeowner.

Construction may begin by a contractor from the District's Approved Contractor List.

Open trench inspection will be scheduled when irrigation pipe construction is ready; please call (530) 295-6873 and allow 48 hours for inspection.

Final Inspection will be scheduled after the approval of the open trench inspection, the landscape construction is completed, and irrigation timers are set; please call (530) 295-6873 and allow 48 hours for inspection—homeowner or contractor are required to be present.

Congratulations!

tips

MAKE SURE YOUR CONTRACTOR MEASURES UP

1 Hire only state-licensed contractors.

2 Check a contractor's license number online at www.cslb.ca.gov or by calling (800) 321-CSLB (2752).

3 Get at least three bids.

4 Get three references from each bidder and review past work in person.

5 Make sure all project expectations are in writing and only sign the contract if you completely understand the terms.

6 Confirm that the contractor has workers' compensation insurance for employees.

7 Never pay more than 10% down or \$1,000, whichever is less. Don't pay in cash.

8 Don't let payments get ahead of the work.

9 Keep a job file of all papers relating to your project, including all payments.

10 Don't make the final payment until you're satisfied with the job.
