* The meter size and associated equivalent dwelling unit (EDU) are based on standards adopted by the American Water Works Association (AWWA)

** Single Family Residence with Private Fire Service- per 2009 International Residential Code (IRC). If sprinkler demand requires a meter size greater than 1-inch, fixture unit demand will be calculated per the 2010 California Plumbing Code to determine domestic use and the applicable meter size and fee.

PLEASE BE ADVISED THAT THE VALUE OF AN EXISTING METER IS DEPENDENT UPON THE TYPE OF SERVICE PURCHASED. PLEASE CONTACT EID DEVELOPMENT SERVICES TO VERIFY THE VALUE OF YOUR WATER METER.
