EL DORADO IRRIGATION DISTRICT
Class Specification

CLASS TITLE: Hydroelectric Manager

DEFINITION

Under administrative direction from the Director of Operations plans, organizes, directs and coordinates the activities of the Hydroelectric Division within the Operations Department including maintenance and operation of the District’s hydroelectric plant and related facilities; coordinates operation, maintenance and regulatory activities with other divisions and departments; and provides highly complex staff assistance to the Director of Operations.

DISTINGUISHING CHARACTERISTICS

The Manager level recognizes positions that provide full line and functional management responsibility for a division, as identified by the District, within a department.

SUPERVISION RECEIVED AND EXERCISED

Receives administrative direction from the Director of Operations. Responsibilities include supervisory authority over supervisory, professional, technical and support positions.

EXAMPLES OF ESSENTIAL DUTIES: the duties specified below are representative of the range of duties assigned to this class and are not intended to be an inclusive list.

Develops and implements divisional goals, objectives, policies and procedures; assists Department Director with department-wide goals and objectives.

Plans, organizes and directs hydroelectric plant operations and maintenance activities including the District’s canal and irrigation ditch systems, the maintenance and monitoring of District reservoirs, as well as ensuring compliance with regulations and FERC license requirements.

Directs, oversees and participates in the development of the Hydroelectric Division work plan; assigns work activities, projects and programs; monitors work flow; reviews and evaluates work products, methods and procedures.

Prepares the Hydroelectric Division budget; implements division budget; forecasts additional funds needed for staffing, equipment, materials and supplies to support division; administers division budget.

Recommends to the Department Director the appointment of personnel; provides or coordinates staff training; conducts performance evaluations; implements discipline procedures as required; maintains discipline and high standards necessary for the efficient and professional operation of the division.

Monitors Federal Energy Regulatory Commission (FERC) hydroelectric license requirements; reports any license deviations; interacts and reports operational issues to FERC.
CLASS TITLE: Hydroelectric Manager

Manages the implementation and review of Emergency Action Plans for all hydroelectric facilities as required by FERC and the State Department of Safety of Dams.

Interacts with a variety of local, regional, State and Federal agencies regarding the operations of the District’s hydroelectric plant and related facilities.

Meets with the District’s irrigation customers to discuss and resolve irrigation water delivery issues and concerns.

Recommends alterations to hydroelectric facilities, canal and ditch systems and assists in the planning and implementation of new systems and the overhaul of existing facilities.

 Represents the division and department to outside agencies and organizations; participates in outside community and professional groups and committees; provides technical assistance as necessary.

Researches and prepares technical and administrative reports; prepares written correspondence.

Builds and maintains positive working relationships with co-workers, other District employees and the public using principles of good customer service.

Performs related duties as assigned.
