In March 2015—for the first time—the District sent electronic surveys to 4,000 randomly selected customers throughout the District with various services (2,000 water and 2,000 sewer) using Survey Monkey. This became a viable option for the District as staff has worked diligently to collect email addresses from our customers. To date approximately 64% of our accounts have an email address on file. By using the electronic survey, we were able to reduce costs by 70% and reduce staff time by 80% compared to the last survey mailed out in 2012.

The six questions previously used were once again asked and are consistent with the District’s key performance indicators. The response rate was an outstanding 25% (1,003 responses)—slightly higher than the 2012 survey (989 responses). Consistent with past surveys, water quality and reliability were identified as the most important issues to our customers, followed by security of the water supply and quality, and cost of water. Overall, all questions saw an increase in satisfaction compared to the 2012 survey.

**Summary of 2015 results**

**Question 1** – Based on your experience, how satisfied are you with the water service provided to you?
- Response – 91% said they are very satisfied or satisfied with EID’s water service.
- 2012 – 87% an increase of 4%

**Question 2** – If you have telephoned the District, are phone calls answered promptly and professionally?
- Response – 93% of those surveyed were very satisfied, satisfied, or had no reason to even call.
- 2012 – 90% an increase of 3%

**Question 3** – Compared to other utilities’ field responses (electric, gas, phone, etc.), is the District’s response level excellent, very good, average or poor?
- Response – 95% said that EID’s response is excellent, very good, or average.
- 2012 – 92% an increase of 4%

**Question 4** – Compared to other utility companies (electric, gas, phone, etc.), the District’s water rates are very reasonable, reasonable, or unreasonable?
- Response – 65% said EID’s water rates are very reasonable or reasonable.
- 2012 – 54% an increase of 11%

**Question 5** – Compared to other utility companies (electric, gas, phone, etc.), the District’s sewer rates are very reasonable, reasonable, or unreasonable?
- Response – 47% responded that the sewer rates are very reasonable or reasonable.
- 2012 – 39% an increase of 8%

**Question 6** – Please rank your belief about the importance of the following, 5 being most important.
- Response – 864 customers ranked water quality as most important followed by water reliability with 780 customers ranking it as most important. Security of water supply and quality came in third with 679 responses; 571 said cost of water is most important, followed by additional water supply with 516 responses, watershed protection with 503 responses, emergency response with 484 responses, wastewater treatment with 440 responses, and “other” with 21 responses that were related to the question.
Question 7 – Please indicate your preferred method to receive information, 1 being most preferred. (As you enter your preference, the list will re-sort to reflect your entries)

- Response – The EID bi-monthly newsletter, *The Waterfront*, with 363 responses fell to second position behind email which with 536 responses was the preferred source of information concerning EID for this online survey. The District’s website came in third with 77 responses, trailed by newspapers, other, and local cable stations with 13, 12, and 2 responses respectively.

**Email and Online Statistics**

Currently 64% of all District accounts have an email address on file. The District uses these email addresses to communicate important messages regarding drought, *The Waterfront*, potential water outages, and other publications. Based on the survey results, our customers have indicated email is one of the top ways they prefer to receive District information and staff plans on utilizing email more in the future.

As of May 1, 2015, we have 15,487 accounts (39%) registered for online bill pay. Of these online accounts 4,662 have a recurring credit card payment set up and 9,979 receive their bills via email only.
2015 Customer Satisfaction Survey Results
Survey Process

- Surveys typically sent bi-annually
- Past surveys sent via mail
- In 2015 surveys sent via email
  - Survey Monkey used for the first time
- Sent to 4,000 random customers
  - 2,000 water and 2,000 sewer
- Saved money and staff time
