Commercial Use Stipulations

1. The Permittee shall designate a representative for field operations before activities may commence, who shall be the sole field representative of the permittee’s employees or contractors in dealing with the authorized El Dorado Irrigation District (EID) monitor. Said representative shall be employed on behalf of the permittee’s employees or contractors to communicate with the monitor, and to receive and comply with all communications and decisions of the monitor.

2. A copy of the permit and the stipulations shall be kept available on location at all times, for review by EID personnel upon request. All persons (e.g., permittees, contractors, subcontractors) working at the site will be familiar with the permit stipulations. Non-compliance with permit stipulations may result in cancellation of the permit, or other adverse actions against the permittee.

3. Availability of all authorized areas for commercial activities is subject to the restrictions based on their compatibility with other authorized activities as well as area carrying capacity limits.

4. The permittee shall confine all activities within EID property specifically defined by the attached map at the specified times and dates. Permittee understands that areas open to the public are subject to prior reservation by the public, and the District’s customary fees for use will be charged if permittee wishes to use those areas.

5. The area shall be kept clear of trash and debris and all trash and debris generated by the operation shall be removed immediately after completing operations. Waste and other discharges from camping vehicles or other equipment is prohibited.

6. EID must be notified of any commercial use involving exotic (i.e., plants and animals not native to the foothills east of the Sacramento region) or domestic species. The permittee is responsible for controlling and cleaning up after these species, including feces, to avoid the dissemination of seeds or diseases on EID property. Animals shall be under the control of qualified handlers at all times. Animals shall not be allowed to feed on natural vegetation. Permittee is responsible for providing appropriate feed and water for the animals. During the operation, animals will be fed certified weed-free hay or non-germinating pellets. Animals will be tied to a parked vehicle; contained in a free-standing fenced corral; and/or housed within a trailer in a parking area or road, when not in use. All animal "waste" shall be removed from the public lands on a daily basis. Transmission of diseases from domestic animals to wildlife will be avoided through appropriate action (vaccines, avoidance of contact, etc.)
7. Operations shall be conducted in such a manner as to avoid creating safety hazards to other EID visitors and the operations crew. The permittee shall use whatever signs, flagging, help of individuals, or other authorized safety devices for the safe conduct of the operation and the protection of other users and visitors before, during and after activities. Extra caution shall be used by the permittee during the “dry” season (July through October) with regard to vehicles or equipment used around dry grasses. EID reserves the right to require the permittee to provide a specific Traffic/Crowd Control Plan, defined by EID, in cases where permittee’s activities are expected to draw large crowds and create increased traffic.

8. Rental fees are subject to Sly Park Recreation Area’s reservation policy. Please contact the Recreation Area office at 530-295-6810, recreation@eid.org or visit our website http://eid.org/recreation for more information.

9. For operations requiring a boat, permittee must comply with all of EID’s boating regulations.

10. Domestic animals and children wearing diapers are not permitted to swim in lake, since the lake is a drinking water source (per CA state law.)
